

28 June 1960

MEMORANDUM FOR: Chief, TISD *jwc*

STATINTL

SUBJECT: Proposed Itinerary - [REDACTED] - Period 1-31 July

FMA

The contract with FMA for the image integrater should be in effect by 30 June. I think it would be useful to see FMA during the period 5-7 July in order to make sure the work starts off smoothly. This requires a trip to LA 5-7 July.

*** ITEK

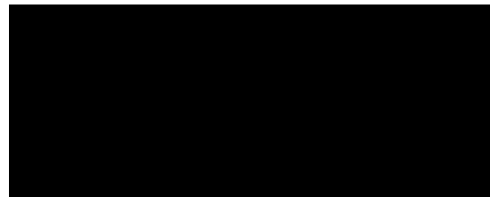

The Spatial Coherent image enhancer is now being reassembled by ITEK. I have spoken to [REDACTED] and feel that a visit to ITEK during the period 12-15 July will be valuable. I want them to have suitable samples of material with which to start their work. A second phase of the work will take place sometime 15-20 August. As I shall be at MIT 8-15 August, I can also be with ITEK during the period 18-20 August without further travel.

STATOTHR

Leave

I also request permission to take leave after leaving ITEK 15 July until 31 July.

STATINTL

** Enhancer to be
returned to PIC
28 August*
